Title: IBM PC PASCAL support for the IBM XY/750 pen plotter

Author(s): Sinclair, D.

Issued by: IBM United Kingdom Ltd., Winchester, UK

Publication Date: Nov. 1985 Country of Publication: UK vi+18 pp.

Report Number: UKSC 141

Language: English

Abstract: A software package is described that permits IBM PC Pascal applications to control an IBM XY/750 pen plotter attached to the PC via the asynchronous **communications** adaptor. Routines are provided that enable the application to define its own coordinate system, to plot points, lines, circles and complete graphs including labelled axes. Plots can be labelled with a variety of lettering options, different pens and using a range of line styles Pseudo 3D plotting of 2D functions is also provided. Pascal listings are included.

Title: SAY - Speech analyser

Author(s): Alderson, P.; Kaye, G.; Lawrence, G.; Sinclair, D.

Issued by: IBM United Kingdom Ltd., Winchester, UK
Publication Date: July 1985 Country of Publication: UK vi+38 pp.
Report Number: UKSC 135
Language: English

Abstract: The UKSC Speech Analyser (SAY) is a laboratory system for the digitisation, editing, analysis, storing, replay and display of speech signals. Many of its facilities (except for the audio input and output) are equally useful and applicable to any form of time series analysis. The system is designed for a wide range of users extending from computer specialists to linguists. Consequently it has a user interface that provides a balance between the flexibility needed by the computer professional and the ease of use appropriate to a linguist or those with less computational experience. This is achieved by using menus for functions used by all categories of user and by using commands for low level detailed signal processing. The speech analyser consists of the following functional components: analog audio recording equipment; speech digitiser and playback; waveform display and editor; speech synthesizers; speech and waveform analysis system; spectrum display; special control panel; and host **communication**. The system is controlled by an IBM PCXT with an expansion unit.

A case study examination of seven diverse medical faculty practice plans was used to demonstrate how the plans evolved and how they work. Information was gathered through on-site interviews with a variety of medical school/center administrative staff and clinical faculty. Survey information obtained showed that medical practice plans have become an essential element in the structure of medical schools, because of the schools' desire to compete in the marketplace for quality and satisfied faculty, to achieve program control and balance, and to counteract the reduction of other income sources. Income from the practices is being used to support clinical faculty salaries and medical school programs. The importance of an organized written medical practice plan is being increasingly recognized as conducive to a harmonious school environment and

to avoiding miscommunication. Administrative activities are felt by some medical school practitioners to be burdensome and ineffective, in some cases attributable to dispersed physical facilities for ambulatory care. Some practitioners felt that preoccupation with fiscal issues was detracting from the more worthy objectives of such a plan as a model for health care delivery. It is recommended that medical practice plans be reviewed and updated, with attention to **communications** and management to enhance the relationships between physicians and management and between full-time clinical faculty and non-faculty community physicians.

Moore flights lose money, but grow

Sinclair, David

TEXT:

WHISPERING PINES--A commuter air service is losing **money** on its flights into the Moore County Airport. But an airline official said this week...

...42 percent of the available seats on each flight. Parillo said "we can't make **money** at that rate. We've got seats to sell."

Despite losing **money** in Moore County, USAir has remained profitable since emerging from bankruptcy reorganization in August of 1991, Parillo said.

"There are enough stations making **money** to make up for the ones that are losing **money** ," he said. "If we have more months like October, this one can be profitable."

Parillo said USAir Express realizes the potential for the air service to make **money** in Moore County.

"Southern Pines-Pinehurst is a market that is the cream of the...

Utility buyout may bring credits on Pinehurst Water, sewer bills

Sinclair, David

TEXT:

...Regional Investments of Moore, owners of the Pinehurst Water and Sanitation companies must provide the **credits** before the companies can be sold to the Moore Water and Sewer Authority, according to...

...and the commission's Public Staff, water and sewer customers would receive a \$125.11 **credit** on their monthly bills. The **credit** is the result of changes Congress made to the tax laws in 1986, according to A.W. Turner, a lawyer for the public staff.

The **credit** could provide many customers with three to four months of free service because monthly bills...

...water and sewer average between \$25 and \$35, according to the water company.

Despite the **credits**, a number of residents continue to oppose the sale of the companies to the county...

...high and will result in rate increases.

"Regional Investments would have had to provide these **credits** eventually," said mayor Al Bethel, a leading opponent of the sale. "The sale just triggered it now.

"Anyone will enjoy a substantial **credit** on their bill, but it has nothing to do with the sale."

The authority said...

...for a rate increase since then, Turner said.

"There has been a significant amount of **money** piling up from this, at least on paper," Turner said.

The Internal Revenue Service also...

...income taxable, such as tap fees, Turner said. He said that also contributes to the **credits**.

The public staff determined that Regional Investments must provide \$514,000 in **credits**. It amounts to \$56.94 a month for the 4,756 water customers and \$68...

...the 3,472 sewer customers, according to Turner.

The commission has yet to approve the **credits** or the sale of the companies. Turner said no date has been set to consider...
